**Client
Appointment Books**

Chapter 1: Getting Started

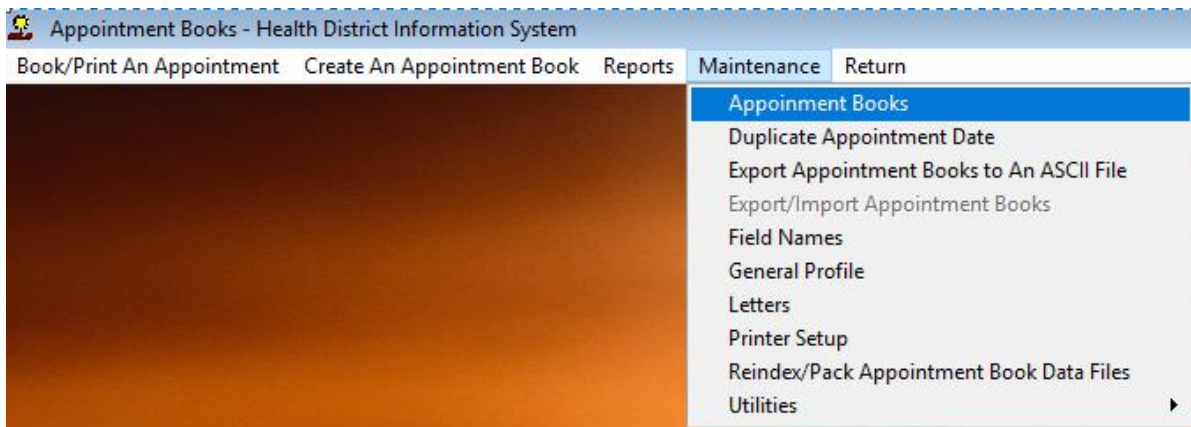

Once **Client Appointment Books** is installed there are some things that need to be set up to make sure the module works correctly.

Making sure the module is set up properly at the beginning helps ensure a smooth transition for getting used to the new section.

Navigate to: **Community and Public Health Services -> Appointment Books - Clients**

The area of focus will be under the **Maintenance** Tab

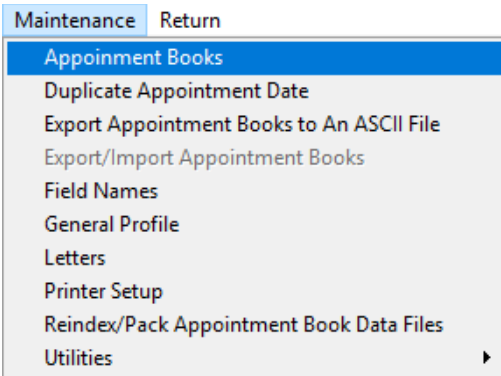

Refer to the [Maintenance Chapter](#) in this manual for guidelines.

Chapter 2: Maintenance

Appointment Books

Once on the **Maintenance** Tab, click **Appointment Books**:

This box is where you **Add/Delete/Modify** the Appointment Books:

- Fill in the Name field
- Fill in the Abbreviation field
- Select the Module

Buttons:

Close

– Close this box

Add

– Add a new Name and Initials

Delete

– Deletes the highlighted Appointment Book

Print

– Prints a list of the Appointment Books

Duplicate Appointment Date

Once on the **Maintenance** Tab, click **Duplicate Appointment Date**:

The screenshot shows a window titled "Appointment Schedule" with a close button in the top right corner. The main content area is titled "Create An Appointment Book". It contains three main sections: "Year" with a text box containing "2018", "Appointment Book" with a dropdown menu showing "FLU/EMPLOYEE", and "Select Month" with a grid of 12 buttons labeled "Jan", "Feb", "Mar", "Apr", "May", "Jun", "Jul", "Aug", "Sep", "Oct", "Nov", and "Dec". To the right of the month grid are two buttons: "Create Book" and "Close".

Select the **Year**, **Appointment Book**, Select **Month**, and click **Create Book** to Duplicate Appointment Date.

After clicking **Create Book** a new window will pop up:

Export Appointment Books to an ASCII File

Navigate to: **Maintenance -> Export Appointment Books to an ASCII File**

After clicking the link, this process will allow you to export appointment books to an ASCII file.

Click the **Start Export** button to begin exporting.

The screenshot shows a dialog box titled "Export Appointment Book(s) to An ASCII File". It contains a table with three columns: "Select", "Name of Book", and "Year". The table has 15 rows, all of which are currently empty. Below the table, there are two buttons: "Start Export" and "Close". The "Close" button is highlighted with a blue border.

Appointment Books Page

The page for editing settings pertaining to the Appointment Books module is found in the Community & Public Health Services section, as shown on next page.

New settings added to appointment books, effective HDIS ver 6.95.6, pertain to creation of the Immunization Detail record for a client when they are booked for an appointment in the Appointment Books screen. These settings are displayed on the right side of the profile page.

The effect of the settings for these specifications is as follows:

- | | |
|----------------------|--|
| No selection | Only updates existing immunization detail.
This is the default specification, behaving same as prior to ver 6.95.6 |
| Prompt Creation | When immunization detail does not exist, prompt user about creating such detail record. Record is created when user selects yes.
As this option is superseded by the 'Automatically Create' option, the setting is enabled for selection only when the 'Automatically Create' option is not selected. |
| Automatically Create | When immunization detail does not exist, create the detail record perforce without verification from user. |

The Immunization Detail record is the location where the Date/Time the client is to return for the next vaccination resides. This is displayed on the Health Services tab of the Health Services screen in the lower right corner above the Save/Cancel button. In original Immunizations, it is displayed in upper right corner of the Immunization page, under the buttons to add vaccination and view Forecast details, as shown here:

The Return Date/Time detail is referenced in generating Recall / Reminder reports.

Letters

The HDIS system provides you the flexibility to write standard letters that can be sent to clients.

These letters will pull data through use of the asterisk *symbol.

The * is placed on each end of the field name that you want to pull into the letter.

Use **capital letters** to describe the field name.

Example: *OWNER* = TOM GORDON

Chapter 3: Using Appointment Books

Create An Appointment Book

Navigate to: **Create An Appointment Book** Tab

After clicking **Create An Appointment Book** Tab a new window should pop-up.

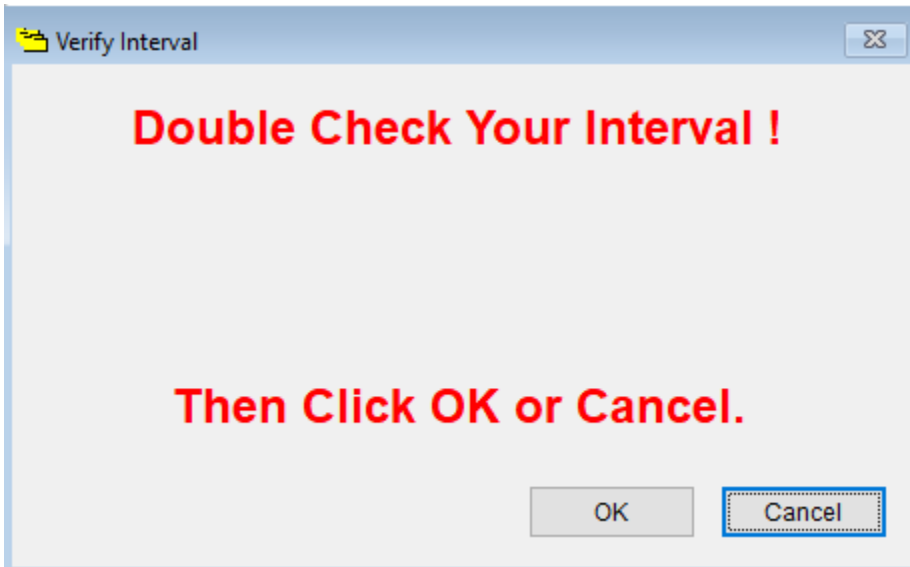

This screen is where you will run through the tasks to create a new Appointment Book.

After selecting the Year, Appointment Book, and Select Month, click **Create Book**.

Field/Button	Description
Interval	Interval of appointment times in minutes
Block out Days	Click on the days when appointments are able to be scheduled (x represents no appointment on that day)
Block out Times	Click on the times when appointments are able to be scheduled; times with a checkmark will be blocked out
Create Times	Click to create available appointment times
Close	Closes the window

After creating a new Appointment Book two windows will pop up:

Book/Print An Appointment

Click the **Book/Print An Appointment** Tab:

This window allows you to select the book you would like to book appointments.

Enter the **Year**, Choose an **Appointment Book**, and click **Book Appointment**.

The screenshot shows a window titled "Appointment Schedule -" with a close button in the top right corner. The main heading is "Select An Appointment Book". Below this, there are two input fields: "Year" containing "2018" and "Appointment Book" containing "FLU/EMPLOYEE" with a dropdown arrow. To the right of these fields are two buttons: "Book Appointment" and "Close".

After clicking **Book Appointment** a new window will pop up:

The screenshot shows a window titled "Book Appointment - FLU/EMPLOYEE / 2018 / 32-0". It features a calendar on the left with February selected. The main area contains fields for Name, Address, DOB, Age, Parent, Phone, and Initials. Below these are buttons for "Book Appt.", "Clear Appt*", "Mark Appt. as Cancelled*", "Move Appt*", "Print", "Delete Appt*", "Add Appt.", "Mark Appt. as No Show*", "Only Available", and "Close". At the bottom is a table for scheduling appointments.

The **Book Appointment** window is where you will book your appointments.

The upper left hand corner displays whose appointment book you are in and the year for that appointment book.

The month and day that you are scheduling will appear in **BLUE**.

The days that appear in **BLACK** are other days in the specified month that are available for scheduling.

The days that appear in **RED** are the block out days that are unavailable for scheduling.

Field Name	Description
